Allowed Claims: 2-6, 8-9, and 11-34

### ***Response to Arguments***

Applicant's arguments see Remarks, filed March 21, 2005, with respect to independent claims 9, 11, and 18, have been fully considered and are persuasive. The Examiner's basis for allowability for these claims is the same as those set forth within that Response. The rejection of independent claims 9, 11, and 18 (and their respective dependent claims) has been withdrawn.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowable subject matter: none of the prior art alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103.

Specifically regarding independent claim 8, none of the prior art alone or in combination disclose or teach of a system for illuminating a target area with a desired illumination pattern having two light sources specifically wherein there is no overlap in light emitted from each of the light sources.

Specifically regarding independent claim 20, none of the prior art alone or in combination disclose or teach of a method for illuminating a target area with a desired illumination pattern having two light sources specifically wherein there is substantially no overlap between the light emitted from the first light source and the light emitted from the second light source.

### ***Conclusion***
